TULVINE SYSTEMS, INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS
(UNAUDITED)

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- (1) ORGANIZATION AND BUSINESS OPERATIONS - Tulvine Systems, Inc. (a development stage company) (the "Company") was organized October 21, 1999, under the laws of the State of Delaware. The Company has no operations and in accordance with SFAS No. 7 is considered a development stage company. The Company was formed to serve as a vehicle to effect a merger, exchange of capital stock, asset acquisition or other business combination with a domestic or foreign private business.

The Company's ability to commence operations is contingent upon its ability to identify a prospective target business and raise the capital it will require through the issuance of equity securities, debt securities, bank borrowings or a combination thereof.

- (2) USE OF ESTIMATES - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and

liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

- (3) CASH AND CASH EQUIVALENTS - For purposes of the statement of cash flows, the Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.
- (4) GENERAL - The financial statements included in this report have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission for interim reporting and include all adjustments (consisting only of normal recurring adjustments) that are, in the opinion of management, necessary for a fair presentation. These financial statements have not been audited.

6

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations for interim reporting. The Company believes that the disclosures contained herein are adequate to make the information presented not misleading. However, these financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report for the period ended December 31, 2003, which is included in the Company's Form 10-KSB.

- (5) INCOME TAXES - Deferred income taxes are recognized for income and expense items that are reported for financial purposes in different years than for income tax purposes.
- (6) NET EARNINGS PER SHARE - Net earnings per share amounts are computed using the weighted average number of shares outstanding during the period. Fully diluted earnings per share is presented if the assumed conversion of common stock equivalents results in material dilution.

B. UNCERTAINTY

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. The Company has been in the development stage since inception (October 21, 1999) and has not yet commenced any formal business operations. All activity to date relates to the Company's formation and proposed fund raising. Management intends to continue its efforts to identify a prospective target business for acquisition, merger or other business combination and raise the capital required through the issuance of equity securities, debt securities, bank borrowings or a combination thereof.

The ability of the Company to continue as a going concern during the next year depends on the Company's success in executing these plans. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

C. STOCKHOLDER'S EQUITY

The Company has 100,000,000 shares of its \$0.0001 par value common stock authorized and 1,000,000 shares issued. There are no warrants or options outstanding.

7

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The Company has registered its common stock on a Form 10-SB registration statement filed pursuant to the Securities Exchange Act of 1934 (the "Exchange Act") and Rule 12(g) thereof. The Company files with the Securities and Exchange Commission periodic and episodic reports under Rule 13(a) of the Exchange Act, including quarterly reports on Form 10-QSB and annual reports on Form 10-KSB. As a reporting company under the Exchange Act, the Company may register additional securities on Form S-8 (provided that it is then in compliance with the reporting requirements of the Exchange Act) and on Form S-3 (provided that it has during the prior 12 month period timely filed all reports required under the Exchange Act).

The Company was formed to engage in a merger with or acquisition of an unidentified foreign or domestic private company that desires to become a reporting company whose securities have been registered under the Exchange Act. The Company may be deemed to meet the definition of a "blank check" company

contained in Section (7)(b)(3) of the Securities Act of 1933, as amended.

Management believes that there are perceived benefits to being a reporting company which may be attractive to foreign and domestic private companies. These benefits are commonly thought to include:

- (1) the ability to use securities to make acquisition of assets or businesses;
- (2) increased visibility in the financial community;
- (3) the facilitation of borrowing from financial institutions;
- (4) improved trading efficiency;
- (5) the potential for shareholder liquidity;
- (6) greater ease in subsequently raising capital;
- (7) compensation of key employees through options for stock for which there may be a public market;
- (8) enhanced corporate image; and
- (9) a presence in the United States capital market.

A private company which may be interested in a business combination with the Company may include:

- (1) a company for which a primary purpose of becoming a reporting company is the use of its securities for the acquisition of assets or businesses;
- (2) a company which is unable to find an underwriter of its securities or is unable to find an underwriter of securities on terms acceptable to it;
- (3) a company which wishes to become a reporting company with less dilution of its common stock than would occur normally upon an underwriting;
- (4) a company which believes that it will be able to obtain investment capital on more favorable terms after it has become a reporting company;

8

- (5) a foreign company which may wish an initial entry into the United States securities market;
- (6) a special situation company, such as a company seeking to satisfy redemption requirements under a qualified Employee Stock Option Plan; and
- (7) a company seeking one or more of the other benefits believed to attach to a reporting company.

Management is actively engaged in seeking a qualified private company as a candidate for a business combination. The Company is authorized to enter into a definitive agreement with a wide variety of private businesses without limitation as to their industry or revenues. It is not possible at this time to predict with which private company, if any, the Company will enter into a definitive agreement or what will be the industry, operating history, revenues, future prospects or other characteristics of that company.

As of the date hereof, management has not made any final decision concerning or entered into any agreements for a business combination. When any such agreement is reached or other material fact occurs, the Company will file notice of such agreement or fact with the Securities and Exchange Commission on Form 8-K. Persons reading this Form 10-QSB are advised to see if the Company has subsequently filed a Form 8-K.

The current shareholder of the Company has agreed to not sell or otherwise transfer any of its common stock of the Company except in connection with a business combination.

The Company does not intend to trade its securities in the secondary market until completion of a business combination. It is anticipated that following such occurrence, the company will take the steps required to cause its common stock to be admitted to quotation on the NASD OTC Bulletin Board or, if it then meets the financial and other requirements thereof, on the Nasdaq SmallCap Market, National Market System or regional or national exchange.

Under the supervision of and with the participation of management, including the principal executive officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of March 31, 2004, and, based on its evaluation, our principal executive officer has concluded that these controls and procedures are effective.
